Computer methods that work

CUTTING EDGE TECHNOLOGY FOR TODAY

Technology Lab
Room 512

Where we put the
knowledge in technology

The Dallas High School Computer lab has cutting edge software installed so that students can learn in an environment that matches today's technologically advanced society.

Students Enjoy Coming to Class!

Blogs & Wikis Added

A recent addition to Computer Applications class includes a unit on Blogs and Wikis.

Students create a classroom wiki, a collaborative online effort that mirrors what is happening in the class. It is the students' work!

Animation Added

Create realistic flames or waves on the ocean.

CAD Advanced now includes high-end animation which uses the same software as movie studios.

Your imagination is the limit!

Computer Applications

Students learn the following:

- ❖ Blogs & Wikis
- ❖ Word Processing
- ❖ Resumes and Cover Letters
- ❖ Spreadsheets
- ❖ Databases
- ❖ PowerPoint

WEB Design Class

Student will learn Web Design fundamentals:

- ❖ HTML Code
- ❖ CSS (Cascading Style Sheets)
- ❖ MS FrontPage
- ❖ Adobe Dreamweaver
- ❖ JavaScript

CAD (Basic)

Students will learn AutoCAD:

- ❖ Drawing Lines/Circles/Polygons
- ❖ Orthographic Projection
- ❖ Multi-view Drawings
- ❖ Layers
- ❖ Mirror/Rotate and Scale
- ❖ Architectural Design Standards

CAD (Advanced)

Students will perform advanced animation:

- ❖ 3dsMax Software
- ❖ Animate Complex Systems
- ❖ Create Fire and Water Effects

Do you have a business that needs a website?
We are always looking for real-life experiences for our students!
